EDUCATION

University of British Columbia

Bachelor of Science, Computer Science

Vancouver, BC

Expected Spring 2029

- GPA: 3.3 / 4.0
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Discrete Mathematics, Computer Systems, Software Construction, Linear Algebra, Multivariable Calculus

EXPERIENCE

Shuttlesport Badminton Academy

Front Desk Associate

Summer 2023 – Summer 2024

- Processed customer payments and registrations while maintaining accurate records, serving 25+ customers per shift
- Managed inventory through regular stock tracking and restocking, and helped plan and coordinate facility events
- Responded to customer inquiries via phone and email and maintained cleanliness of general facility areas

Shuttlesport Badminton Academy

Spring & Summer Camp Coach

2023

- Coached and led badminton drills and lessons for groups of 25+ campers across a range of skill levels, adapting on the fly to keep sessions effective and engaging

PROJECTS

UBC Amazon Robotics Hackathon

- Placed 3rd overall (Third Place) at the UBC Amazon Robotics Hackathon

LifeTracker — Personal Productivity App | *Swift, SwiftUI*

- Designed and built an all-in-one iOS productivity app consolidating budgeting, calendar, to-do lists, class schedules, and notes into a single unified interface
- Architected multiple interconnected SwiftUI modules and shared data models to support daily planning across several life domains, used personally on a daily basis

Search Algorithm Explorer: A* & Minimax | *C++*

- Implemented A* pathfinding and Minimax adversarial search with game-tree traversal from scratch to study heuristic search efficiency and algorithmic performance trade-offs relevant to game AI

Fitness & Nutrition Tracker | *Swift, SwiftUI*

- Built an iOS app to log workouts and track daily nutrition intake, with persistent data storage to track trends in exercise and diet over time

TECHNICAL SKILLS

Languages: C++, Java, Python, Swift, JavaScript, HTML/CSS

Tools & Frameworks: SwiftUI, Git/GitHub, VS Code, Xcode

Concepts: Data structures, algorithm analysis and complexity, object-oriented design, search algorithms (A*, Minimax), mobile app development, API integration

ACTIVITIES & LEADERSHIP

Provincial Junior Champion — Badminton

- Won at the provincial level in junior badminton, reflecting years of competitive training and discipline

Physics Club Lead | *High School*

- Led club meetings and coached a team at the UBC Physics Olympics, a province-wide high school physics competition
